

FAST. SECURE. OFFSHORE.

Introducing signOff

signOff is the world's first offshore, cloud-based digital signature service. Offering the highest levels of security and flexible monthly payment plans, signOff makes signing documents digitally simple, quick, cost effective and secure.

Advantages

Lightning Fast

Save time and money on printing, scanning, storing and postage costs by signing with just the click of a button.

Anywhere Access

signOff is cloud-based enabling you to sign your documents at any time, anywhere, on whatever device is most convenient to you.

Legal

signOff digital signatures are as legally binding as "wet" signatures and are globally acceptable.

Offshore based

Unlike other signature solutions that store data in the USA, signOff is based in the Channel Islands, providing an offshore service with protection of your data.

Your data is not 'stored' or duplicated long term. We will not retain your documents, ensuring that you retain 100% confidentiality.

Strong security

signOff digital signatures are based on public key infrastructure (PKI) technology and guarantee signer identity and intent, data integrity and the non-repudiation of signed documents. The digital signatures cannot be copied or altered.

Products

Using iSign overcomes all issues associated with printing & signing documents.

- Add a signature field to your document and double click to sign.
- iSign will provide a secure digital signature that is automatically embedded in your document, sealing it and proving that you signed it.

If a document must be signed by a third party, issues of signing analogue paper copies are reintroduced along with postage times and costs.

- Share documents quickly and easily with your business partners by uploading them to our secure, offshore, website.
- Your partner is alerted to the need to sign a document via email with a convenient link. They open the document and click to sign.
- You have the option of sending a one time password via SMS for an extra level of security
- Your partner has an option to download a copy of the document for their records.
- You receive confirmation once the document has been signed, so that you may download the document now containing both signatures.

Contact
